Step 1: Navigate to CSV Template

- Go to all products page 'Products > All Products'

The screenshot shows the AF Home dashboard. The left sidebar is expanded, and 'Products' is selected. An orange arrow points to 'All Products' in the sidebar. The main content area displays the 'Products' section with a welcome message and a search bar. Below this are four summary cards: Total Products (2,281), Active (2,273), Inactive (8), and Low Stock (0). A filter section includes tabs for All, Active, Inactive, and New, along with search and filter options. A table of products is shown below, with columns for Image, Product, SKU, Supplier, Uploader, Price, Dealer, Member, Stock, Badges, Status, and Action. Two products are listed: ImportTest17 and ImportTest18.

- Click add product button

The screenshot shows the AF Home dashboard. The left sidebar is expanded, and 'Products' is selected. An orange arrow points to the '+ Add Product' button in the top right corner of the main content area. The main content area displays the 'Products' section with a welcome message and a search bar. Below this are four summary cards: Total Products (2,281), Active (2,273), Inactive (8), and Low Stock (0). A filter section includes tabs for All, Active, Inactive, and New, along with search and filter options. A table of products is shown below, with columns for Image, Product, SKU, Supplier, Uploader, Price, Dealer, Member, Stock, Badges, Status, and Action. Two products are listed: ImportTest17 and ImportTest18.

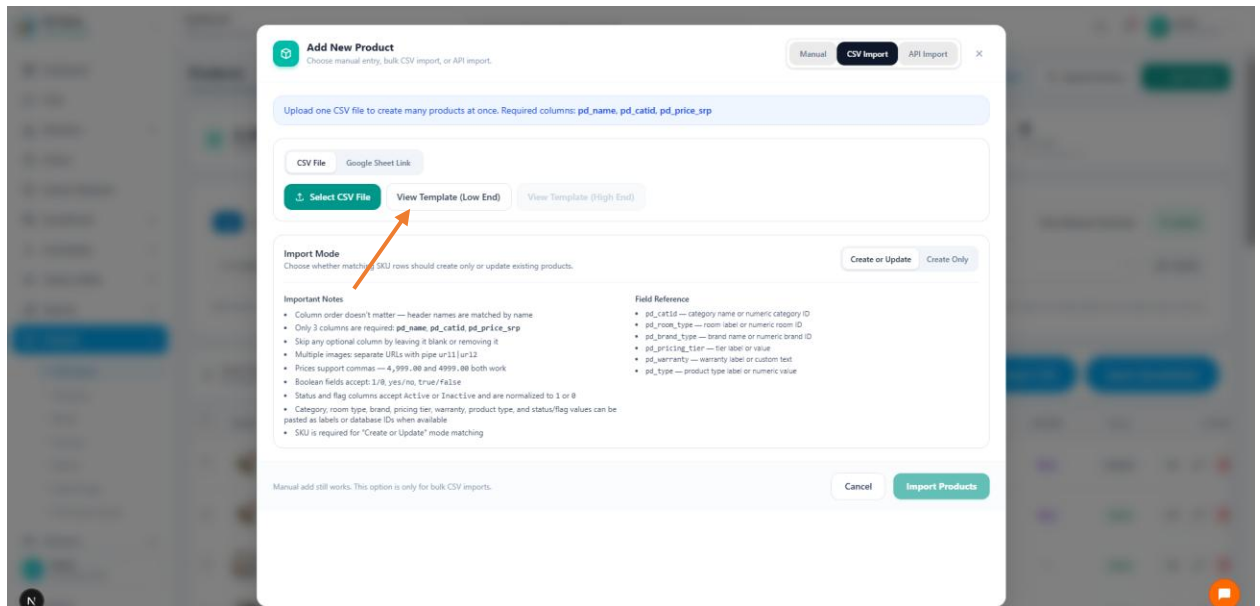

IMAGE	Product	SKU	Supplier	Uploader	Price	Dealer	Member	Stock	BADGES	Status	ACTION
	ImportTest17 #1826 (2 variants)	HPRE1-03826	Affordahome Brand	SUPER ADMIN SUPER ADMIN	P1,350.00	P1,300.00	P1,250.00	10	New	Inactive

- Click 'CSV Import' Button

The screenshot shows the 'Add New Product' form. At the top right, there are three tabs: 'Manual', 'CSV Import', and 'API Import'. An orange arrow points to the 'CSV Import' tab. Below the tabs, there is a yellow banner with the text: 'Local draft restored. Unsaved fields and uploaded image links are back in this form.' The form is divided into two main sections: 'PRODUCT IMAGE' and 'PRODUCT INFORMATION'. The 'PRODUCT IMAGE' section has a dashed box with a camera icon and the text: 'Click or drag to upload image' and 'JPG, PNG, WEBP, GIF A-max 5MB each (up to 10)'. The 'PRODUCT INFORMATION' section contains fields for 'PRODUCT NAME *' (with 'Testsample' entered), 'CATEGORY *' (a dropdown menu), 'BRAND' (a text field), 'SHOP BY ROOM' (a dropdown menu with 'Auto / Not assigned' selected), and 'SUBCATEGORY ID' (a text field). At the bottom right, there are 'Cancel' and '+ Add Product' buttons. A note at the bottom left says 'Fields marked * are required'.

- Click 'View Template (Low End) Button

The screenshot shows the 'Add New Product' form with the 'CSV Import' tab selected. Below the tabs, there is a blue banner with the text: 'Upload one CSV file to create many products at once. Required columns: pd_name, pd_catid, pd_price_srp'. Below this, there are two tabs: 'CSV File' and 'Google Sheet Link'. Under 'CSV File', there are three buttons: 'Select CSV File', 'View Template (Low End)', and 'View Template (High End)'. An orange arrow points to the 'View Template (Low End)' button. Below the buttons, there is an 'Import Mode' section with the text: 'Choose whether matching SKU rows should create only or update existing products.' and two buttons: 'Create or Update' and 'Create Only'. Below the 'Import Mode' section, there are two columns of text: 'Important Notes' and 'Field Reference'. The 'Important Notes' column contains a list of bullet points: 'Column order doesn't matter — header names are matched by name', 'Only 3 columns are required: pd_name, pd_catid, pd_price_srp', 'Skip any optional column by leaving it blank or removing it', 'Multiple images: separate URLs with pipe |||', 'Prices support commas — 4,999.99 and 4999.99 both work', 'Boolean fields accept: 1/0, yes/no, true/false', 'Status and flag columns accept active or inactive and are normalized to 1 or 0', 'Category, room type, brand, pricing tier, warranty, product type, and status/flag values can be pasted as labels or database IDs when available', and 'SKU is required for "Create or Update" mode matching'. The 'Field Reference' column contains a list of bullet points: 'pd_catid — category name or numeric category ID', 'pd_room_type — room label or numeric room ID', 'pd_brand_type — brand name or numeric brand ID', 'pd_pricing_tier — tier label or value', 'pd_warranty — warranty label or custom text', and 'pd_type — product type label or numeric value'. At the bottom left, there is a note: 'Manual add still works. This option is only for bulk CSV imports.' At the bottom right, there are 'Cancel' and 'Import Products' buttons.
